

Super Parents. Welcome to the journey of creating or building on Christ-Like Legacies for finances in your children. This guide will help you walk your child through how to use their powers(abilities), grow their powers, and manage the money they make from their powers. Along the way, you and your child will learn, have fun, and honor God in your finances. Feel free to print out an extra activity guide to join in. Lets begin...

Super Hero Powers

You will help the kids discover powers are abilities in our everyday life and how we use them can help others and ourselves.

Using Your Powers

You will help the kids assign their powers to certain chores. It will be important to use the suggested age chore chart provided. When deciding the amount to pay the children, consider their age, consider the difficulty of the task, and your own budget. We recommend paying their age weekly on Friday or Saturday. Use the sample chore chart as a guide as well.

10/10/80

Once you pay them make sure they have a plan for their paycheck. A basic and Godly plan to start with is 10/10/80. We provide best practices. The 1st key is to help them get the first things right in honoring God. The 2nd key is to help them start saving even just a little bit now which pays off down the road. The 3rd key is as they plan their spending to learn the importance of quality and delayed gratification. These will help them build a foundation that will set them up for life. A God honoring, debt free, and generous life. For any questions email info@crosscuturedenver.org.

Chore Chart

As you plan their powers and chores we have provided a sample chore chart that the Super Friend used. We recommend taking time the same day every week to pay them and plan for the next week. We are so excited for you to get started!
